GALVALUME
AZ50 (55% ALUM/ZINC)

Prepainted Steel Sheet for exterior use consists of:

Natural or Prepainted Galvalume offers superior performance when compared to Galvanized.

Galvalume is recommended in all applications EXCEPT for bulk chemical fertilizer (potash) storage buildings, particularly in relatively humid regions, and pig barns.

All colours are subject to material availability. Custom colours are available with sufficient quantities (~50000 sqft) and time (ask your Sales Rep).

Colours on this are reproduced as accurately as possible, please ask for a physical sample if unsure.
